

# Sunday Afternoon Kubb at the Arneson Pitch 2024

Sons of Norway- Mandt Lodge will have informal kubb practice and instruction each Sunday night at 4 PM at the Arneson farm on Sunday nights in June and July. The farm is located at 2056 Skaalen Road just east of Stoughton. All are welcome to come- no need to sign up as you can just come out with friends and family. If you have never played, this is a great way to learn. And if you know how, a great chance to practice and socialize! Park by the shed and the pitch is there and we have sets to use.

- June 2
- June 23
- July 14
- June 9
- June 30
- July 21
- June 16
- July 7
- July 28

## Kubb

Kubb (rhymes with tube) is a lawn game where the object is to knock over wooden blocks, known as kubbs, by throwing wooden batons at them. Kubb originated in Scandinavia and was introduced commercially in the late 1980's. It can be described as a combination of bowling and bocce.

**Object of the game:**  
Be the first team to knock over all the other team's kubbs, followed by the King, all in one turn.

**6 batons** — 44mm diameter x 300mm  
Always tossed underarm. Sideways, horizontal tosses or "helicopter" spins are illegal throws.

**10 kubbs** — 70mm sq x 150mm  
Kubbs always start on the baseline, and move to the field only after they have been toppled.

**1 King** — 90mm sq x 300mm (crown optional)  
The King is always the last to be toppled. If a team topples the King before they topple all their opponent's kubbs, they lose (it's sort of like an 8-ball in pool).

All King shots are taken from behind the permanent baseline.

**1. Set-up**

Team A's baseline, Team B's baseline, Team A, Team B

- 8m long x 5m wide pitch, divided into two fields (A & B)
- 5 kubbs on each baseline and 1 King in the middle of the pitch.
- 1 to 8 players per team.

**2. King toss**

- A & B each toss one baton toward the King.
- Closest to the King without toppling it can choose to throw first or pick a side of the pitch to play from.

**3. Team A wins toss and attacks first**

- A throws 2 batons underarm from behind their baseline.
- A topples as many of B's kubbs as they can.

**4. Team B tosses (inkasts) all toppled kubbs**

- Kubbs must come to rest in A's field (across middle line).
- A bats the thrown kubbs upright (as though they were on a hinge) by choosing an end to stand them on.

**5. Team B attacks, aiming for field kubbs first**

- B throws 4 batons and must topple all A's field kubbs before going to baseline kubbs.
- Baseline kubbs toppled before all field kubbs are put back up.

**6. Team A inkasts any toppled kubbs**

- Since B didn't topple all of A's field kubbs, a temporary advantage line is created.

**7. Team A attacks**

- A can move up to attack from the temporary advantage line created by the closest remaining field kubb.
- A throws 6 batons (used the rest of the game), toppling B's field kubb before baseline kubbs.

**8. Team B tosses toppled kubbs**

- B tosses the kubbs close together to make it easier to topple several with a single baton.

**9. Team B attacks**

- B topples three of A's field kubbs with a one baton combo shot (also known as blasting).

**10. Team A inkasts**

- A inkasts the toppled kubbs close together.

**11. Team A attacks**

- A blasts a couple combos, clearing the field kubbs, and then topples the last baseline kubb.

**12. Team A slays the King and wins the game**

- King shots are always taken from behind the permanent baseline.
- 1 match is best of 3 games.

**legal raise**

Note: if a kubb can be raised in-bounds B must be raised in-bounds
